VERNISSAGE “HOLZ FORMEN”

18 Uhr | BAR | Deutsch/German | Foyer | Bar

Der Bund Schweizer Architektinnen und Architekten BSA gewährt alle zwei Jahre ein Forschungsstipendium. Die Wanderausstellung mit den Ergebnissen wird vom Architekturrat der Schweiz unterstützt. Lukas Ingold, Träger des sechsten BSA-Forschungsstipendiums, beschäftigt sich mit den vielfältigen Verarbeitungsprozessen von Holz und deren Potenziale für die Architektur. Der Einsatz leistungsfähiger Werkstoffe wie Formsperrholz eröffnet zahlreiche neue entwerferische Möglichkeiten, besonders im Hinblick auf das umweltgerechte Bauen. Die Forschung bezieht sich sowohl auf architektonische Fragestellungen als auch auf historische, ökologische, ökonomische, technische und kulturelle Zusammenhänge. Dadurch soll eine andere Perspektive auf das Bauen mit Holz geworfen werden.
