

WOMEN IN ARCHITECTURE IN THE GLOBAL SOUTH

In collaboration with the NGOs *humantektur gmbH* and *Architekten über Grenzen*, you are invited to be part of a study about Women in Architecture in the Global South (Africa/Asia/Latin America). The field of female architects working in the construction industry in the Global South is largely underexplored. Together, we want to shed light on this topic. Based on a questionnaire, interviews will be conducted with selected female architects from different countries - ranging from Argentina to Mozambique, Chad, and beyond - and the knowledge gained will be enriched with research and background information on the situation of women in the construction industry in their respective countries. Based on the interview and research results, posters and a booklet will be created for an exhibition in the Berlin Global Village in June 2025.

The exhibition will be open to the professional public, NGOs and the general public as part of the nationwide WIA Festival 2025 (Women in Architecture) in Germany (19 June 2025 to 29 June 2025).

WHEN Individual appointments will be set with the instructor. Group projects are also possible, as well as group work with individual submissions

START February 11 2025 to End of May 2025; participation in the exhibition opening in June 2025 as an option

ASSESSMENT Written assignment

CREDITS 2 ECTS: Research and interview analysis (written submission)

3 ECTS: Design of posters with the profiles of the female architects, their projects and the situation in their respective country (poster and written submission)
