

Installation of eduroam in macOS

1. Open cat.eduroam.org in your Browser and download the installer

Click here to download your eduroam® installer

2. Select University of Liechtenstein

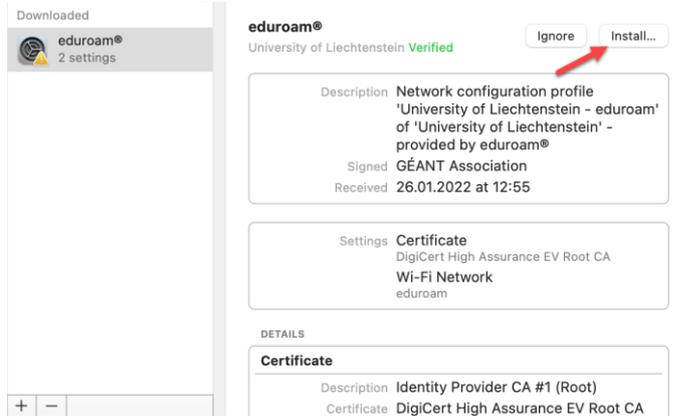

3. Download the installer

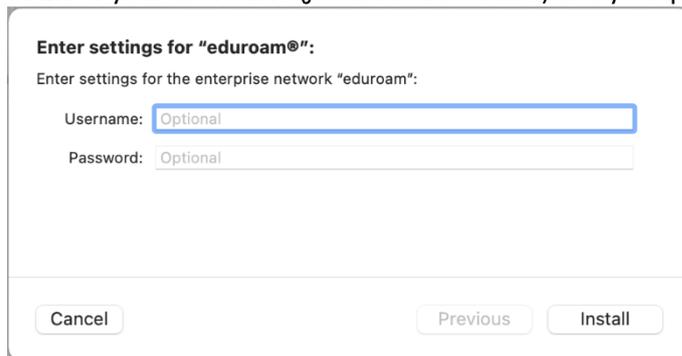

4. Go to Downloads and open the just downloaded installer

Name	Size
 eduroam-OS_X-UoL.mobileconfig	

5. Go to **Settings – Profiles** and press **install**

6. Enter your username (*firstname.lastname*) and your password

The screenshot shows a dialog box titled 'Enter settings for "eduroam®":'. Below the title, it says 'Enter settings for the enterprise network "eduroam":'. There are two input fields: 'Username:' and 'Password:'. Both fields have 'Optional' written inside them. At the bottom of the dialog, there are three buttons: 'Cancel', 'Previous', and 'Install'.

7. Enter the password from your Mac to install the profile
